Subject: Comm v [REDACTED]

Hi ADA Meade, We received your fax regarding the possibility of resubmitting sample # [REDACTED] (485 glassine bags of heroin) so that it may be retested by the lab. Both original chemists are no longer employed by the laboratory. We do have their analytical data and hand notations for the original work of which I have sent you copies. The original GC/MS data done by Nancy Tisei is available and can be reviewed by another chemist as well as the hand notations of John Donovan. The laboratory's policy is not to retest samples if the original data is still available, but to have one or two of the chemists working in the lab now, examine the notes and testify. If this will not work for you, you will have to contact the Lab Director, Julie Nassif, to request a possible re-submittal of the item. Take care.

Charles Salemi
